

THE NATURAL SOLUTION
FOR SMELLY FEET

NOW
AVAILABLE

FUNGHICLEAR™ DEOSPRAY

If you struggle with foot odor at the end of the day this is not uncommon. When feet perspire they do so for a reason. This can be heavy exercise, poorly fitting shoes or even due to certain genetic reasons. The perspiration leads to bacteria that live on the skin and in shoes to produce sulphur, which causes the odour. FunghiClear™ Deospray binds the sulphur to its natural ingredients. We have added Manuka-oil and lemongrass-oil to help protect against fungal growth while also giving your feet a fresh feeling.

Recommended by professionals

FunghiClear™ Deospray is a deodorant for your feet and shoes. Endorsed by care professionals, FunghiClear™ DeoSpray combats pesky, stigmatized conditions with ease. Podiatrists and other professionals such as podologists and pedicures recommend FunghiClear™ DeoSpray as an effective natural solution for bad odours of shoes and feet.

100% natural active ingredients

Manuka-oil is a powerful ingredient with well-documented anti-bacterial, anti-fungal, and anti-viral properties.

Lemongrass-oil provides a fresh and clean feel.

The basis of many of our products is Manuka-oil, a powerful ingredient with anti-fungal, anti-bacterial and anti-viral properties that have been well-documented by science. The use of Manuka-oil for medical purposes has been long known to the Maori, the indigenous people of New Zealand, and our anti-fungal spray bases its effectiveness on the oil's ability to combat and prevent fungal infections.

Clever design

1. Up-side down spray mechanism: easy to apply, important if you can't reach your feet easily.
2. The spray can be applied on your feet and as well as the inside of your shoes.
3. The pleasant smell and user-friendly flacon makes it easy to carry FunghiClear™ DeoSpray with you anywhere. Keep a flacon in your briefcase, gym bag or at home to prevent smelly feet and protect against fungi.

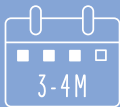

Dry your feet

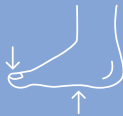

2x a day

Every day
in shoes

Use for
3-4 months

Use only on feet
and toenails

Out of reach
of children
