

 FUNGHICLEAR™

THE NATURAL SOLUTION TO COMBAT
AND PREVENT TOENAIL FUNGUS

RECOMMENDED BY
DUTCH PROFESSIONAL
MEDICAL PEDICURISTS

TOENAIL FUNGUS: EASY TO CATCH AND HARD TO GET RID OF

1 in 4 adults suffer from fungal infections of the toenails (dermatophyte onychomycosis) during their life. Fungal infections are very contagious and easy to catch in showers, changing rooms, swimming pools or saunas.

Fungi are not visible with the naked eye, however you can recognize the symptoms of a toenail fungus as:

- Signs of inflammation (redness) of the skin
- Discoloration of the toenail
- Thickening or brittleness of the toenail
- Disfiguration of the toenail or even separation from the nail bed

The best chance to get your fungal infection under control is to regrow a healthy toenail and which takes time. It can take up to 18 months for a toenail to regrow. FunghiClear™ is a medical device which has proven to be safe, effective and easy to use.*

FUNGHICLEAR™ MANUKA NAIL SPRAY

FunghiClear™ is *the* natural and safe alternative to the many synthetic fungicides. Unlike a fungicide, which kills fungus, the natural ingredients of FunghiClear™ make it difficult for the funghi to thrive. It repels the fungus from the nail and surrounding area. By using FunghiClear™ twice a day, a healthy nail can start to regrow. Continue daily use until a new and healthy toenail has completely grown out. The total treatment varies per person and can take 6 to 18 months.

100% NATURAL ACTIVE INGREDIENTS

MANUKA OIL

High quality organic
Manuka oil from
New-Zealand.

BASIL OIL

MENTHA- PIPERITA OIL

LAVENDER OIL

KEY BENEFITS

- ✔ Recommended by professionals; proven to be safe, effective and easy to use.
- ✔ 100% natural active ingredients; no drug interactions with other medications, safe to use by children, the elderly and those with a weakened immune system.
- ✔ Clever packaging; the upside down spray makes it easy to reach your toes and the design supports use twice a day without a mess.

SCIENTIFICALLY PROVEN

FunghiClear™ Manuka Nail Spray is qualified as a Medical Device Class 1 under EU regulation. Recent studies confirm that FunghiClear™ is safe, effective and easy to use to combat and prevent toenail fungus. The twelve week evaluation showed no side-effects and a significant improvement of over 30 percent. of the effected nail. The users rated the convenience for daily usage at 4.2 out of 5.*

★★★★★ WORKS WELL

Jenn, Netherlands

"The bottle lasted quite a while. Eventually you will need 3 or 4 bottles to completely let the fungal nail grow out. But it lasts a good while and with good care the problem disappears completely. Be patient and you will see fantastic results, it definitely works."

LONG-TERM TREATMENT WITH FUNGHICLEAR™

- SPRAY TWICE A DAY ON AFFECTED NAIL(S)
- SPRAY IN YOUR SHOES ONCE A WEEK
- MAKE FUNGHICLEAR™ PART OF YOUR DAILY HYGIENE ROUTINE
